

MAKE A GREAT RECORDING IN 6 STEPS

1

SETTING

Choose a **quiet** area, with ample **lighting**. Make sure your camera reflects you clearly.

5

RECORD & REVIEW

Remember to **record, watch & listen** back to your recording until you are satisfied with your performance/sound.

2

WARDROBE

As the performer, dressy-casual is preferred (jeans and t-shirts are discouraged)

6

UPLOAD & SUBMIT

- Once your recording is complete, you are ready to upload/submit your video
- Access our Accelerando [Submission link](#) and upload.
- Remember to label your Recording as follows: Name/Piece/Mvt (example: Bryson_MozartConcertoA_Mvt2)

3

RECORDING DEVICE

Select your device and the platform you prefer to record on (audio/video) – Computer or Mobile (*Mobile Camera Apps work great*)

4

MICROPHONE

- Properly assemble and connect your microphone.
- When you are ready to record, select the correct microphone input on your recording device

RECORDING TIPS:

1) Remember to connect with your audience, they are behind the camera.

2) Remember **You** should be the focus. There should always be more of you and your instrument in the video-frame than anything else. (From the **waist to your face** should always be seen)

3) Keep in mind, your microphone is picking-up your audio. While recording try to stay in one general location so your audio levels remain consistent and natural.

4) When recording with a pre-recorded track...
A. Make sure only you hear the track, and it's not heard in your video
B. Using earphones/buds, keep one ear open to hear your natural sound/one ear listening to the track.
