

# **BUILD YOUR OWN MUSIC CLASS**

How to make a visual schedule for your child/student:

1. Cut out the activity tiles. If you can, laminate (or cover with clear tape) the tiles and the schedule page so you can reuse them multiple times.
2. Choose activities and arrange the tiles on the schedule page in whatever order you wish. For elementary grades we suggest about 30 minutes at a time, but chose however much time works for you.
3. Follow the schedule with your child as you go through the activities. Be sure to review the activities and have any required craft materials prepared in advance.

**The Nashville Symphony's Home Resources page and downloadable lesson plans provide crafts, instrument flash cards, guessing games, guided listening activities and more. You can choose from these activities and use the corresponding tiles, or make your own!**
